

Hola! You are in... 

Café del Mural
Laboratorio Artesanal

We are Gin, Gabi, Diana & David
What do you want to drink today?

ABOUT US
I could tell a long story of how a kind of engineer and designer, ends up obsessed with coffee. But the best explanation is that when you have coffee in your blood, it does not matter what you think about life ... the coffee will come for you, and it will become your way.
And the roads with coffee ... ARE BEST!

OUR philosophy
Our coffees are not perfect because we do not sell coffee, but experiences that captivate your time. We want you to try a different way of drinking coffee. It is for this reason that we devised a menu with three ways to taste coffee. A conventional way, where you will have what you expect from coffee. You can take medicinal coffees with spices, or you can mix and experiment with whatever you want. Have us patience! We have handcrafted and small machines, and a group of people who do the best ... FOR YOU!

What Coffee do we use?
